## RUSSIA ANNOUNCES ITS TERMS OF PEACE

(By Associated Press.)  
PETROGRAD, Oct. 22.—The Russian peace program, as drawn up by the central executive committee of the council of workmen's and soldiers' delegates in the form of instructions to M. Skobtseff, ex-minister of labor, its delegate to the Paris conference, consists of twelve articles covering the whole ground from Panama to Persia. Article eleven demands the "neutralization" of the Panama canal and article nine calls for the restoration of all colonies to Germany. The program of the central executive committee follows: First—Evacuation by the Germans of Russia and autonomy of Poland, Lithuania and the Lettish provinces.

Second—Autonomy of Turkish Armenia.  
Third—Solution of the Alsace-Lorraine question by a plebiscite, the voting being arranged by local civil authorities after the removal of all the troops of both belligerents.  
Fourth—Restoration to Belgium of her ancient frontiers and compensation for her losses from an international fund.  
Fifth—Restoration of Serbia and Montenegro with similar compensation. Serbia to have access to the Adriatic. Bosnia and Herzegovina to be autonomous.  
Sixth—Disputed Balkan districts to receive provisional autonomy followed by a plebiscite.  
Seventh—Rumania to be restored her old frontiers on condition that

she grant Dobruja autonomy and grant equal rights to Jews.  
Eighth—Autonomy for the Italian provinces of Austria to be followed by a plebiscite.  
Ninth—Restoration of all colonies to Germany.  
Tenth—Re-establishment of Greece and Persia.  
Eleventh—Neutralization of all straits leading to inner seas and also the Suez and Panama canals. Freedom of navigation for merchant ships. Abolition of the right to torpedo merchant ships in wartime.  
Twelfth—All belligerents to renounce war contributions or indemnities in any form, but the money spent on the maintenance of prisoners and all contributions levied during the war to be returned.

## SURVIVORS OF THE ANTILLES SAFE IN PORT

(By Associated Press.)  
FRENCH PORT, Oct. 22.—Survivors of the United States transport, Antilles, which was sunk by a German submarine last week, were landed here yesterday. Some of the men have been lodged in local hotels and a few have left for Paris. The torpedo struck the ship at a quarter to seven o'clock Wednesday morning. Many were killed in their berths. The explosion killed the engineers, oilers and mechanics and those of the crew who were in the bunks below.  
All the survivors praise the captain of the Antilles and the members of the gun crew, who stuck to their posts until the waves closed over the ship.  
When the Antilles sank, forty or fifty men were at the stern. Most of them leaped fifty feet or more into the sea as the stern rose to a perpendicular position. The sea was running high at the time, making it difficult to save the crew and passengers. Some survivors, clinging to debris, were in the water an hour before being picked up.

## BEARINGS LOST BY ZEPPELINS ON RETURNING

(By Associated Press.)  
PARIS, Oct. 22.—Although at first it was thought that the first Zeppelin fleet to France Saturday was an independent raid and the first step toward carrying out the threat made in a German wireless message which said it had been decided to destroy Paris in reprisal for French air raids on German towns, it now is generally believed that these eight Zeppelins, four of which were destroyed or captured, were returning from England and had lost their bearings on account of the fog and probably had lost touch with their wireless communications.  
The log book of the Zeppelin which landed intact shows that she had been to England, and prisoners from three other airships confirm this. One of the men captured said it was the lack of gasoline that forced his Zeppelin to descend. The raid is widely proclaimed by French observers as being definite proof of the superiority of the airplane over the Zeppelin. The day of the Zeppelin for bombardment, an expert says, is

## German Emperor Returns From Visit to Constantinople and Will Go to Naval Bases

(By Associated Press.)  
The Russian Riga fleet has started northward from Moon sound, possibly with the intention of endeavoring to escape through the tortuous channels and maze of islands lying between them and the Gulf of Finland. Or, it is possible that the Russian armada, although far inferior in gun power and tonnage, has sailed forth from the sheltered waters where it took refuge last week to give battle to the dreadnaughts and other craft comprising the German fleet.  
The announcement of the sailing of the flotilla is contained in the last German official communication, which says the Russians left behind the wreck of the battleship Slava, which was sunk in last Wednesday's battle, and four additional vessels that have run aground since the

naval activities in the Gulf of Riga began. If the Russians are endeavoring to make their escape instead of offering battle, doubtless their destination is Reval, the Russo fortress situated on the Gulf of Finland in Northern Esthonia.  
Meanwhile the Germans have captured in its entirety the island of Dago, lying at the southwest entrance of the Gulf of Finland, and also the island of Schildau, situated between Moon island and the Estonian coast in the Gulf of Finland. Several hundred prisoners were taken on Dago island.  
On the fighting front in Belgium heavy artillery activity on the part of the British and French continues, with the Germans answering spiritedly on various sectors. In Champagne, near Mount Cornille, and in the Verdun sector at several points there have also been violent artillery duels. In Champagne the Germans delivered somewhat heavy infantry attacks against the French west of Monte Cornille, but were repulsed. There has been brisk fighting between the Italians and Austrians in the Trentino region and along the Julian front on the Austro-Italian theater, and between the entente forces and Teutonic allies in Macedonia. Likewise in East Africa there has been a renewal of intensive fighting between British and German troops in which the Germans were defeated. In Champagne the Germans delivered Germans returned to the fray, and at last accounts a new battle was in progress. Heavy losses had been sustained by both sides when the last reports were sent to London.  
The preliminary parliament has opened in Petrograd. Premier Kerensky made the opening speech and was loudly applauded when he announced that while Russia desired peace she never would bow her head to force.  
"We must fight only to save the country," the premier added, amid renewed applause.  
The German emperor having concluded his visit to Constantinople is on the return journey to Berlin, where today he is scheduled to take part in the celebration of the birthday of the empress. The emperor is expected to visit the German naval bases, at some of which disaffection recently has been reported, and also to go to Helgoland. He also is expected to discuss with the leading statesmen the political situation which recently has been acute.

MISSOULA, Mont., Oct. 22.—The Great Western Sugar company, which has factories throughout Montana, Colorado, Nebraska and Wyoming, has announced a plan for presenting to each of its employees who was in its service for six months or more previous to September 1, a life insurance policy for the amount of wages received during the previous year, up to \$3,000.

## PRES. M. B. CUTTER ON THE FUEL SITUATION

M. B. Cutter, president of the Tonopah & Goldfield railroad, arrived this morning from his home in Minneapolis. He came from Reno in the private car, Mizpah. Mr. Cutter, when asked about fuel conditions, made the statement that the fuel question throughout the United States is a very serious one. He believes that the people have not given it sufficient thought and consideration. On account of labor and transportation conditions a much smaller amount of coal is being mined than the market requires. With cold weather approaching much suffering will probably ensue and the question has become one of great seriousness.  
While in Reno yesterday he ordered all of the gondolas owned by the T. & G. Railway company, now being used by the Southern Pacific, to be taken at once to the coal fields in Utah, there to be loaded with fuel for Tonopah, Millers, Gold-

## BOTH RESTRAINED IN MINE LITIGATION

In the case of the White Caps Mining company versus the Morning Glory Mining company, one phase of which was tried in the Fifth judicial district court, Judge Averill on Friday evening continued the injunction, making it binding on both parties to the action, restraining them from entering upon and extracting ore from the lode in question, but leaving both parties free to operate in other portions of their

## MINERS EXPECTED TO RESUME WORK

(By Associated Press.)  
SPRINGFIELD, Ill., Oct. 22.—Both miners' officials and operators expressed confidence that practically every mine in Illinois, shut down during the past week through the walk-out of miners, will be in operation today.  
Harry Fishwick, vice-president of the Illinois miners' organization, who received telegraphic reports from various sections of the state, said he was sure there would be very few miners still on strike after today.

## BUSINESS HOUSES TO CLOSE.

All business houses and offices in Tonopah will be closed from 1 until 5 o'clock Wednesday afternoon, with the exception of several that necessity demands remain open. During this time everybody is expected to attend the Liberty Loan drive meeting at the Airdome. The committee that secured the signatures of business men to close consisted of R. J. Highland, William DeCourcy and Charles Wittenberg.  
field and other Southern Nevada communities. He said that the people of this section should at once wire Governor Boyle, stating the need of coal and ask him to request Chairman Garfield of the fuel conservation to make an order that all cars for this southern section now in transit not be sidetracked, but be carried to their destination the same as though they were loaded with perishable goods.  
Mr. Cutter leaves in the morning for San Francisco, where he goes to take up personally the matter of fuel transportation with the officials of the Southern Pacific. Yesterday Mr. Cutter went to Carson City to consult with Mr. Walker, the state fuel administrator, but found him very ill and then took up the matter with Governor Boyle.

## ALL LIVES LOST ON ANTILLES INSURED

(By Associated Press.)  
WASHINGTON, Oct. 22.—All hands in the military and naval service who perished with the loss of the American transport, Antilles, torpedoed and sunk by a German submarine October 17, came within the scope of the new war insurance law, the treasury department announces and thereby automatically carried insurance to the amount of \$5,000 each.  
This sum will be paid the families of the dead soldiers and sailors in monthly installments of \$25 each over a period of twenty years. It is in addition to new insurance which will be paid to widows, children and dependent mothers of the men. A widow, for instance, will be paid \$25 insurance and \$25 compensation, a total of \$50. While the \$25 insurance is a fixed maximum, in cases where no application for insurance was made, the additional compensation varies from \$20 for a motherless dependent child to a maximum of \$75 for all dependents.
